## GROW HEALTHY AND WEALTHY WITH DAISY

Daisy is a unique business opportunity as good for you as it is for the environment.

As the world's only carbon neutral dry cleaning business, Daisy is at the forefront of the cleaner, greener attitude to business that is fast becoming a worldwide phenomenon. That's why Daisy is such a rare and highly profitable business. Simply, Daisy is in tune with the growing customer awareness to be greener and to respect the environment.

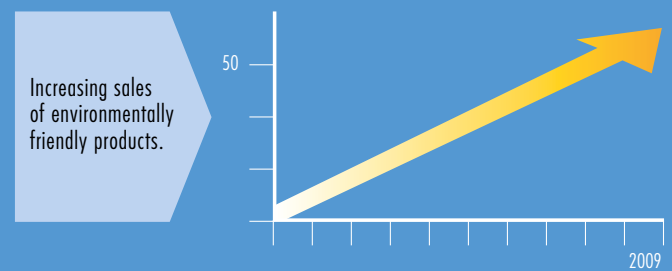

Our outlets have already proven the financial success of this forward thinking business. And of course, being first into this valuable market means Daisy has a head start on everyone else.

## WITH DAISY YOUR FUTURE IS BRIGHT GREEN

We live in challenging economic times yet the innovative Daisy garment cleaning system is a perfect business for today and tomorrow.

Consider this: research shows in recessionary times people spend more looking after their clothes, having them regularly dry cleaned, than buying new ones. But when the upswing occurs people will also spend consistently on dry cleaning to ensure their new clothes remain as good as new. And as you know, there is a growing mass movement to greener brands. It means Daisy is a truly twenty first century brand set to flourish.

## CLEAN UP WITH DAISY

The unique Daisy positioning creates business, it helps you sell, and it generates income. It adds up to a recession-proof business with a regular income stream.

If you think you'd like to join the success of the Daisy chain we'd love to hear from you. Let's have a chat, we'll answer your questions, and we can even arrange for you to come and work with us for a while so you can get a real feel for the business before you decide. That way you can see first hand what a great growth opportunity Daisy is.
